

Kodiak Connected Applications

Kodiak Meet-me Conference – Convenient Dial-in Conferencing

The Kodiak Meet-me Conference application allows users to schedule dial-in conference calls, directly from their mobile handset. With Kodiak Meet-me Conference, the call originator sends an off-line meeting notification to call participants, which includes a nationwide dial-in number, conference ID and access code. Call participants can join the conference from any phone, on any network. Conference attendees are sent an SMS notification with all of the conference details, which allows them to join the call directly from the text message or easily re-join the conference in case of a missed or dropped call. Kodiak Meet-me Conference provides end users with a variety of convenient conferencing features including the ability to see who else has been invited to join the conference.

FEATURE OVERVIEW

- Originator sends off-line meeting notification with dial-in number (nationwide), conference ID and access code
- No handset client is required by the conference originator
- Originator’s mobile number is the same number as the conference ID
- Call participants can join from any phone, on any network
- Option for pay-per-use service, without pre-provisioning
- Attendees can click to join the conference call or re-join the call from an auto-generated SMS notification
- Available on the following Open OS clients: BREW, Java, SIM, Symbian, and Windows Mobile

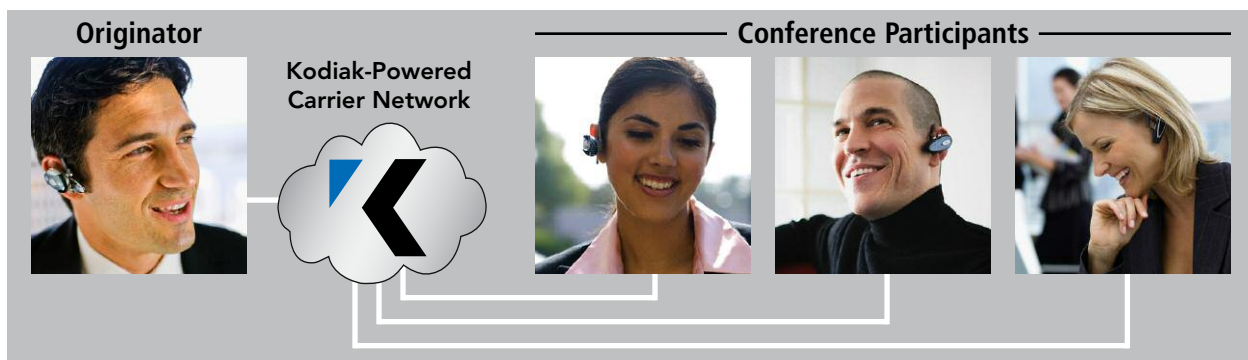

Kodiak Connected Applications

Communicate with any dialable number, on any network – Mobile, Landline or VoIP device

Both client-based and clientless application versions are available

Uses native phonebook for contact and group lists

Kodiak Connected Applications are integrated to maximize end user efficiency and ease of use

THE KODIAK CONNECTED DIFFERENCE FOR END USERS

Convenient – Call organizers schedule dial-in conference calls using a nationwide number

Simple – The conference originator's mobile number is the same number as the conference ID

Efficient – Conference participants can be selected directly from the native phonebook

Device Independent – Kodiak Meet-me Conference calls can be made to any dialable phone number, on any network

THE KODIAK CONNECTED DIFFERENCE FOR WIRELESS OPERATORS

Clientless and Client-Based Options – Kodiak Meet-me Conference does not require a handset client, helping to speed end user adoption and increase operator revenue. Carriers can also offer a pay-per-use option to end users, which does not require pre-provisioning.

Community Building – Kodiak Meet-me Conference can support multiple participants, which provides the flexibility necessary to conduct business or just stay in touch with family and friends. The scalable nature of this mobile conferencing application helps drive group-oriented communications on a frequent basis.

Privacy Protection – All call participants receive an invitation to the Kodiak Meet-me Conference and have the option to accept or decline the request to join the call. This privacy option is beneficial to all call participants and encourages application use, helping to drive usage and ARPU.

Integrated Applications – Kodiak Meet-me Conference seamlessly integrates with other applications, allowing users to choose how and when they want to communicate with members of their contact list.

Mobile Phone Book – Kodiak Meet-me Conference leverages the convenient Kodiak contact and group management interface that simplifies the addressing, organization, and identification of conference participants.

Multi-lingual Support – Kodiak Connected Applications can support multi-lingual requirement to address global and regional market demands.
